English Junior 20

- 20 lessons per week

The junior course aims to build up basic knowledge of the language by focusing on simple verbs, grammar and vocabulary. The course is designed specifically for children. Learning is made more effective and much more fun through the use of visual props and exercises in the form of games and activities. Trainers communicate verbally and non-verbally with the students, and this enables those with a very low level of English to understand and participate in the lesson. The child is encouraged to practice through participation and the trainer creates a positive atmosphere where students are confident and relaxed. Child supervision by trainer is offered at no extra charge during school hours.
